

KUSHANG SHAH

SOFTWARE DEVELOPMENT ENGINEER

+91 8780330874 | kushangshah9009@gmail.com | kelta-king.github.io | [LinkedIn](#) | [Github](#)

Software Development Engineer with **Full stack development** profile. I have strong **Googling** and **AI querying** (or "ChatGPTing") skills to find information and solve problems. I am a **Passionate Software Developer**. You can count on me to find solutions—if I know them, I'll provide them right away; if I don't, I certainly know how to find them.

AREA OF EXPERTISE

Web Development

Java, SpringBoot, NodeJs, Github, SQL, ReactJs, Vanilla JS, System Design, PostgreSQL, AWS, Cloud

Native Application Development

C++, C++ STL, Perforce, Linux systems, WireShark, CMAKE, Kotlin, Jetpack Compose, Android, System Architecture

PROFESSIONAL EXPERIENCE

Software Engineer - Samsung Research & Development Institute - Delhi

July 2022 - Present

- **SMART DOWNLOADER**
 - **Reduced downloading bandwidth** on server by implementing innovative downloading strategy. It distributes the downloading content in all the devices and then devices shares content internally. It is the implementation of an AI patent.
- **Logs Capturing of Device on Content Management Server (Remote Logging)**
 - Worked on MagicInfo server and Samsung Signage device for implementation of the of device's **logs capturing on the MagicInfo cloud server** on log collection request.
- **Circle2Search (or Circle2Generate)**
 - Created **Circle2Search (or Circle2Generate)** for Samsung Interactive Whiteboards.
 - You can circle any part of the whiteboard screen and it generates the AI results (Images, texts, translation) of the circled content.

SDE Intern - Samsung Research & Development Institute - Delhi

Jan 2022 - July 2022

- Added **Twitter and Facebook image insertion functionality in Signage Player** of Samsung Signage displays.

KEY ACHIEVEMENTS

- **Samsung Hackathon 2024 Winner.** Won first prize in Samsung's Hackathon for **Circle2Search** feature on Interactive Whiteboard with **Generative AI**.
- **Samsung Great Innovative Idea award of 2024.** Received great innovative idea award for **3D model content player** in Interactive Whiteboards.
- **Efficiency enhancer.** Identified and redesigned the system architecture, proposed a new architecture that reduced the RAM usage of the remote logging service in Signage Devices by 4 MB. This initiative was outside the scope of my assigned project work.
- **Best Trainer.** Received best trainer certificate for technical problem solving skills.

EDUCATION

Aug 2018 - July 2022

B.Tech in Information Technology - IIITVadodara (CPI = 8.11)

PERSONAL PROJECTS

FinTrack - Expenses tracking application

- Using FinTrack, user can add their expenses into categories. User can visualize the expenses using Graphs.
- Developed in SpringBoot and React. Motivation behind this application is that I want to keep track of my expenses :)

NEET-Exam

- Developed NEET Exam Project During Covid-19 Lockdown for NEET aspirants. It got total 1432 registrations.

J.A.R.V.I.S

- J.A.R.V.I.S stands for "Just A Rather Very Intelligent System". A group project led by me.
- AR based Voice Assistant which performs various tasks like sending emails, messages & playing music etc.

ADDITIONAL INFORMATION

- **Languages:** English, Hindi, Gujarati.
- **Awards/Activities:** Awarded **Best Employee of the Quarter** (Spot Award) 3 times at Samsung for outstanding performance and innovation.
- **Hobbies:** Biking, Walking, Foodie
